Roger Josue Vargas Zúñiga

Web Developer

SUMMARY

Highly motivated Front-end Developer proficient in both React and Angular. I possess a profound understanding of front-end technologies and am passionate about creating captivating user experiences.

Highly skilled in translating design concepts into functional web interfaces, utilizing CSS frameworks and preprocessors (like Tailwind CSS, SASS, MUI, and Angular-Material) to ensure visually appealing and responsive applications.

With a team player mentality, I thrive in collaborative environments and always bring a positive attitude towards my peers and superiors.

I am currently seeking opportunities to learn and grow professionally, and with a problem-solving mindset and a proactive approach, I know I am ready to contribute my expertise to a dynamic team and deliver top-notch front-end solutions.
